

The image shows a dark, minimalist interior space. In the center, a large, bright, rectangular display is mounted on a stand. The display is divided into three vertical panels. The left and right panels show a series of concentric, slightly offset lines that create a moiré effect. The central panel is a solid, bright white. Two people, a man and a woman, are standing in the foreground, their backs to the camera, looking at the display. To the left of the display, there is a large window or opening that looks out onto a bright, white brick wall. To the right, there is another opening that looks out onto a dark space with a warm, orange light source. The overall atmosphere is quiet and focused on the visual experience of the display.
